RAPIDS AND RIVERTON DOOR STYLES

StarMark Cabinetry has two new mitered door styles: Rapids and Riverton. These door styles are available in Alder, Rustic Alder, Cherry and Maple.

Rapids and Riverton feature a narrow step down to a wider plane that surrounds the center panel. Choose from a raised center panel for a more traditional look or a flat center panel for a transitional or contemporary feel.

WE CAN CREATE ONE FOR
YOUR HOME TOO.

We can create cabinetry that matches any paint swatch. If you want to match furniture, talk to us about preparing a sample of wood that will guide us in creating a stain. A custom stain takes more legwork than a custom paint. With good direction from you and our experience creating custom stains, the legwork will result in a beautiful finish you'll be proud to offer your homeowner.

We can custom distress all custom finishes! Select the characteristics that you like and we will artfully apply them.

The following distressing techniques are available à la carte:
Dips | Knife cuts | Light chain distressing | Padding (as seen in Chateaux) | Rasping | Rounded corners | Rub through on flat surfaces | Spattering | Speckling (dark brown, as seen in Chateaux) | Worm holes | Worn edges on center panel

BEADED FLUSH END PANEL

Available on overlay and inset cabinetry, this modification replaces a cabinet's standard end panel with 3/4" veneer end panel (with an MDF core) to eliminate the 1/4" reveal. The end panel features decorative beads.
